Presidency Global School

2017,   *9. 8cgpa*

PERSONAL PROJECTS

Developing a Jewellery Site
- Designed and developed a captivating jewelry website, focusing on user engagement and aesthetics. Passionate about creating visually appealing and functional web experiences. My passion for creating engaging and functional web experiences drove the development of this project, showcasing my frontend development skills effectively.

Employee payroll system
- I developed an employee payroll system in Core Java, leveraging the functionality of Part-Time and Full-Time classes. Part-Time class handled variable work hours and wages for hourly employees, while Full-Time class managed fixed salaries for permanent staff. This modular approach ensured accurate payroll calculations for both employee categories, enhancing system efficiency and flexibility..

Online GST calculator
- A simple calculator which takes actual amaunt and then calculate the calculate cgst and sgst (of 9%) and then give the total amount.
